BUY FROM A

If you were starting a bank account you would look carefully into the financial standing of the

RELIABLE FIRM institution before trusting it in nursery stock When you invest your money in nursery stock Many you should be just as careful to invest it with a reliable house. Many people make the mistake of buying where they can get the most for the least money. They overlook the fact that the first cost of the stock is small compared to the cost of planting, caring for the stock and loss of time, when the low priced stock proves a failure, as it usually does There is but little difference between the cost of good stock and poor stock, and it pays to buy the best, and from a reliable firm who offers their customers some protection in the way of financial standing good enough to make good any guarantee. An investigation of our financial standing will show that we are responsible in every way.

We know that we can please you, and ask for your patronage.
